

VOLUNTEERS

The Epsom Public Library welcomes volunteers aged 14 or over to assist the staff in extending the library's service to the community. Volunteers may work in many areas of the library according to the needs of the library and their own interest and skills.

A volunteer's role and responsibilities will be clearly outlined and a volunteer will serve at the direction of the Library Director or the Director's designee. The Library Director will develop procedures for running background checks, recruiting, appropriate placement, orientation, training, and evaluation. The library will maintain a file on each volunteer regarding his/her service at the library. Volunteers will be given periodic feedback on their contributions to the library program. Those who do not meet performance standards, are not reliable or who violate the public trust will not be included or continued in the program.
